La Boîte-en-Valise

La Boîte-en-Valise, is an online exhibition at *la-boite-en-valise.com* that takes place in a reconstruction by a Dutch carpenter, of Marcel Duchamp's 1941 famous mini retrospective work "Boite-en-Valise." The exhibition features the work of 39 artists and will run from January 9th thru February 20th, 2021. *La Boîte-en-Valise* is a project by Office Baroque and was curated by Wim Peeters and Marie Denkens.

La Boîte-en-Valise was born out of the question on how to bring art to people in times when we cannot travel, currently due to COVID-19 restrictions. As much a reflection on the condition of confinement, *La Boîte-en-Valise* is also a reflection on showing and viewing art online and an oddball attempt at finding new ways to connect art and people in meaningful ways.
